

# About Us

Through the graduate support program, we strive to assist graduates on their endeavors even after they graduate CP.

Our hope is that those who wish to give back to the school they once called home always have the opportunity and platform to do so in a diverse and meaningful way, and that they feel supported beyond graduation.

*"Some say their high school years shaped them the most, but for me It was my middle school experience that shaped me. "*

- Isabella Robinson, '16

# CP Alumni Mentor Program

# Mission

Our mission is to unite and engage the extended family of Community Preparatory School (CP) and to become a network and resource for all of our graduates.

The Mentor Program seeks to provide support for both graduates entering high school and graduates currently in high school. Whether through one-to-one mentorship, or connections with all alumni, CP is excited to continue on this new journey with you.

# Structure

The mentorship program is two-tiered and consists of one-to-one mentorships and mentor cohorts:

**One-to-One Mentorship** - Each recent CP graduate will be assigned a mentor that is currently a student at their high school. Mentors and mentees are expected to check in a total of four times per year.

**Cohort** - Recent CP graduates will also be added to existing groups of all current high school students as well as alumni from past years. Cohorts are expected to meet a total of four times: twice on campus with current students, and twice virtually with both current students and alum.

# Expectations

In addition to meetings, mentors and mentees are expected to be available as a resource for one another. The transition into high school is not always easy and having an established community waiting is a great feeling.

Our expectations include: honoring your commitment to meet when required as well as providing guidance, motivation, emotional support and positive role modeling for incoming CP students.

# Timeline

**August:** Back to School Mentor Meeting, mentor assigned

**September/October:** (2) one-to-one mentor meetings, (1) in-person cohort meeting, (1) virtual meeting

**November:** individual school check ins

**January/February:** (2) one-to-one mentor meetings, (1) in-person cohort meeting, (1) virtual meeting

**April:** individual school check-ins
